Submitted by:

The MLK Community Initiative

We, the undersigned members and supporters of the Southeast Bakersfield community, request the City of Bakersfield not move forward in purchasing the Calcot property located at 1900 East Brundage Lane for purposes of operating a low-barrier homeless shelter.

As residents, parents, leaders and community partners, we request the City of Bakersfield work with us in allocating resources aimed at empowering and uplifting our community.

[illegible]

As residents, parents, leaders and community partners, we request the City of Bakersfield work with us in allocating resources aimed at empowering and uplifting our community.

[illegible]

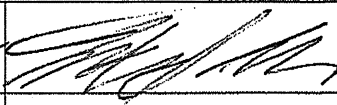

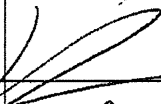

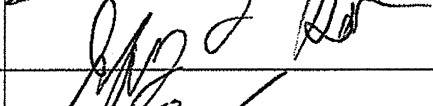

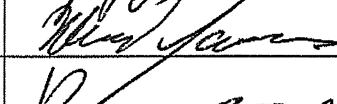

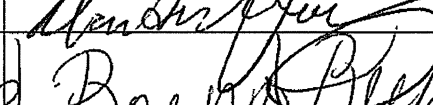

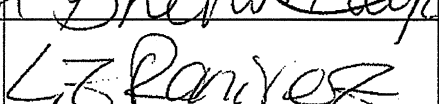

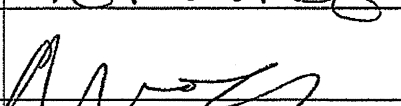

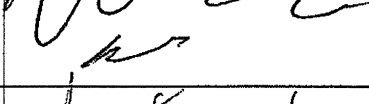

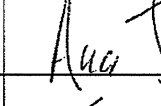

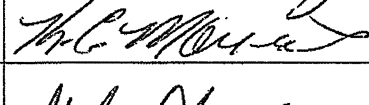

We, the undersigned members and supporters of the Southeast Bakersfield community, request the City of Bakersfield not move forward in purchasing the Calcot property located at 1900 East Brundage Lane for purposes of operating a low-barrier homeless shelter.

As residents, parents, leaders and community partners, we request the City of Bakersfield work with us in allocating resources aimed at empowering and uplifting our community.

[illegible]

Subject: Shelter Needs in Bakersfield

Warning: This email originated from outside the City of Bakersfield. Think before you click!

Honorable Council Members,

As you prepare to make a decision on Wednesday about using City funds to add emergency shelter capacity in Bakersfield, I hope you will consider the following information:

1. **This is a long term problem that needs a long term solution.** The significant increase in homelessness in Bakersfield, Kern County, and California is not a short term issue that is likely to go away in a few years because the underlying issues contributing to the increase in the number of persons becoming homeless (lack of affordable housing, criminal justice reform, etc.) will not be solved in a few years. In addition, at some point we will face an economic downturn that will only exacerbate the problem. *City funds should be invested in a location that provides a long-term solution, not a temporary fix.*
2. **To address the public's concern with the visibility of homeless persons, more Emergency Shelter beds are needed.** A recent gaps analysis determined that even with the addition of the 150 County beds, the 40 bed expansion at BHC, the 40 bed expansion at The Mission, and 150 beds at a City funded site, there will only be enough shelter capacity to house 75% of persons experiencing homelessness in the greater Bakersfield area. This is based on the January 2019 Point in Time count, and most observers believe the count will be higher when completed next Friday. *City funds should be invested in a location that provides the opportunity for expansion.*
3. **Delaying has real consequences.** Persons experiencing homelessness are literally dying on our streets and the public is becoming weary of what appears to be a lack of progress on the issue. Further delay will not help and will contribute to a perception that their support of Measure N was a mistake. While shelters are only part of the solution, they are a critical first step and important component of the continuum of care as we work together to address homelessness in our community. *City staff should be given clear direction on Wednesday to move forward with a location that provides a significant expansion in shelter capacity, provides robust onsite services, and provides the opportunity for long term expansion as needed.*

Thank you for considering this information as I know you have a difficult decision to make next week. In addition, the Housing Authority and its affiliated non-profits look forward to continuing to partner with the City to provide innovative and effective solutions to address homelessness in Bakersfield. **We will begin construction this year on four developments with a total of 175 affordable housing units in the Bakersfield area, each with units set aside for persons experiencing homelessness.** In addition, we have submitted funding applications for another four developments totaling 145 new affordable units in Bakersfield that if funded could begin construction in 2021. The City is a funding partner or potential partner on several of the developments and these new units will help provide permanent solutions so persons experiencing homelessness can exit the shelters. We appreciate your partnership.

Creating brighter futures...one home, one family at a time

Stephen Pelz
Executive Director

Dear. Mr. Rivera:

I understand the City Council will be making a decision about building a homeless shelter very soon. As you know, the idea of the City collaborating with the County rather than building a separate shelter has been raised. I have heard Terry Maxwell's arguments on this topic and found them to be compelling. I think this is an excellent opportunity for the city to work together with the county rather than having to build its own shelter, pay separately for County services such as mental health, etc.

Shelter location suggestion:

The empty Weatherby's Furniture Store on Chester Ave might be a large enough location for a homeless shelter. It has a warehouse in the rear too. Not sure what the cost to purchase it would be.

I drive down Chester everyday from Ming to downtown for work and there are numerous homeless individuals sleeping in front of the buildings. They are already congregating in this area so why not bring the shelter/services to where they are and repurpose a large vacant building at the same time.

Sincerely,
Dianna Matthias

Subject: Urgent: Action Needed on Low Barrier Homeless Shelter

Warning: This email originated from outside the City of Bakersfield. Think before you click!

Honorable Mayor & City Council Members –

As you know, achieving a solution to the homelessness problem was a primary driver of the recent initiative to provide the City with additional funding. I support the efforts of the city to invest in solutions to combat this growing problem.

The City was given the funding to be a responsible partner with the County of Kern, and the District Attorney & Sheriff in solving this problem. I was very disappointing when the city failed to act on a low-barrier shelter, a critical component in the local strategy to address homelessness. I was further disappointed when action was delayed until next year.

You must bring this issue back, in a special meeting if necessary, to approve the low barrier shelter. If necessary reduce the capacity somewhat consistent with that necessary to give the DA, Sheriff, and BPD the power to help resolve this problem under the *City of Boise* decision. If the City fails to deliver on its promises regarding resolving the homelessness and crime issues, the residents will view any future efforts with great skepticism, and lose faith in their City Council. There will *always* be NIMBY resistance to efforts to solve this problem. The Council has to have the courage to resolve the problem.

Sincerely,
John Stovall

Civilization will not last, freedom will not survive, peace will not be kept, unless a very large majority of mankind unite together to defend them....

Subject: Homelessness

Warning: This email originated from outside the City of Bakersfield. Think before you click!

Honorable Mayor & City Council Members –

Homelessness is the priority issue for residents and businesses in Bakersfield. I support the efforts of the city to invest in solutions to combat this growing problem. Unfortunately, I was disappointed when the city failed to act on a low-barrier shelter, a critical component in the local strategy to address homelessness. I was further disappointed when action was delayed until next year. I urge you to bring this issue back, in a special meeting if necessary, to approve the low barrier shelter.
