We purchased a home in the Ashe Meadows community in Ward 6. After we purchased our home, we went through many months of headache and legal fees when someone tried transferring the title to our new Lennar home without our consent. We learned that title insurance doesn't protect against title theft after a home purchase. We thought we were the only ones until we saw the afternoon Supervisors meeting on KGOV and began searching google and found our address and deed in the search results linking to Bakersfield's webpage. My husband left a message with the city managers office and hasn't received a call back yet. We are angry that the county and city allowed this to happen. Please provide title protection coverage to all impacted homeowners.
