Mr. Clegg, I reported this to Ms. Gennaro in January.

I am a student at Bakersfield High. I'm very upset that the city posted my address online. I reached out to the Ms. Gennaro in January and was ignored. I sent her pictures of my address on the city's website. I want the council to know how my abuse has shaped me. It still affects my daily life. I was abused at Garden Pathways. Yet for years I'd tell everyone that I hadn't been affected. It was only when I went for counseling that I began to understand how it impacted me.

What is the city doing to help impacted victims?

Fast Car,

I am not aware of any current issues where information of domestic violence victims is available online. The safety of all our community members is of utmost concern to the City. If you are aware of a specific instance or concern, please provide details. There have been recent inquiries about former incidents related to the State Safe at Home Program. The City is aware of the Safe at Home Program and has been in contact with the Director of the Safe at Home Program in Sacramento. The City is not aware of any violations of the Safe at Home provisions, including on the City website. Any further questions along these lines should be referred to the City Attorney.

I hope you can help. I was sexually abused more than 10 years ago and have a private address. I understand that my address has been posted online. I've called the city numerous times and no one calls me back. I have lots of concerns. Please help.
