Warning: This email originated from outside the City of Bakersfield. Think before you click!

During our city manager's first 100 days, Christian Clegg has refused to protect victims of domestic violence and notify families who had their addresses leaked on the city's website. He has refused to take corrective action and discipline staff who violated the city's data agreement with the county in which staff, supervisors, and department heads agree not to post deeds online.

As we all know, the city has the ability to do more to protect victims and provide a professional and accountable government to Bakersfield residents. We strongly think Mr. Clegg is not fit for his role to lead a city of 400,000 people. We call for the immediate resignation of Mr. Clegg.

A lot of us are really disappointed, we believe Mr. Clegg was supposed to support accountability and professionalism. There is no reason for Mr. Clegg's silence and inaction to protect domestic violence survivors.

Please help us gain faith in our city leadership again.

Ezra
